Buying for Continental Account in London Strengthens American Shares—Advances in Tennessee Coal and Iron, Which Was a Conspicuous Feature in the Dealings.

NEW YORK, April 20.—American stocks advanced in London on renewed buying for continental account, together with a better understanding of the actual conditions in the steel and iron trades. A few large dealings, making it a conspicuous feature of the market. There were no particular gossips attending its course. Sterling exchange was very strong in the initial dealings and this circumstance gave rise to rumors that the gold shipment was imminent, which had some effect in unsettling the dealings at large. Following upon the initial dealings a much firmer tone developed, particularly for the industrial stocks.

The market again this morning was fairly strong with new buying apparent in several quarters and an indisposition on the part of the bears to take an aggressive attitude in view of the excellent bank statement due tomorrow. The Street stocks opened up, Tennessee Coal and Iron especially selling a point above last night's close, although it sold "flat" afterward 2 per cent. A number of the railway issues were also strong. Money continued easy and the bears attempted to get out the impression that gold exports are likely, but there is no reason to expect anything of this kind.

The gross earnings of a large number of railways that have reported for March

DON'T WAIT!

As if in clarion tones, Clarendon has declared itself! It has captured the public's attention by the legend—on billboards, in newspapers, booklets, etc.—"CLARENDON: WHAT DOES IT MEAN?" That hosts have been reading the particulars and getting the facts is shown by the talk on the street and the rail—by a heavy-weight mail—by a constantly growing office demand, by a steadily increasing rush to the property—and, BEST EVIDENCE OF ALL, by the

Rapidly Lessening Number of Lots Left on the Plan.

IF YOU WANT ONE, DON'T WAIT! COME NOW!! COME TODAY!!!

These investigators know that "WHAT DOES IT MEAN?" is not simply a question of a name or a suburb—they now see its larger significance—that it is bound to mean, AND TO SECURE, to every one of you who takes advantage of the multitude of opportunities it offers you—the first steps to a home of your own—and an actual cash gift of \$100 to \$300 toward the cost of your house—and two years' car fare free—and all improvements free, and protection at every point; protection from undesirable neighbors, from forfeiture in case of sickness or loss of employment, from losing all or ANYTHING you've paid in. Should you die before payments are completed—your family receiving deed without further cost.

Also that it means a start toward independence by a safe, sure, and profitable investment—a far better way of saving than the savings banks afford—a two-dollar return for every dollar "deposited"—the greatest present value for the smallest outlay ever known in Washington (prevailing prices cut in half), and the absolute certainty of substantial increase within five years' time. And all for \$1 to \$1.25 a week, without interest, taxes, notes, or mortgages—\$90 to \$140 (with only \$2 first payment) buying as beautiful and every way desirable a lot as you could ask for or find anywhere.

LOTS ARE GOING WITH A RUSH—FASTER AND FASTER EACH DAY!

IF YOU WANT ONE, DON'T WAIT! COME NOW!! COME TODAY!!!

As all these facts become more widely known AND THEIR FULL MEANING REALIZED, the public is showing its appreciation of a surpassingly beautiful property—of the splendid work we're laying out upon it—of the marvelously low prices and unparalleled terms and inducements we offer—and there's
